OneNote

<https://www.onenote.com>

Microsoft OneNote is a computer program for information gathering and multi-user collaboration.

* It gathers users' notes (handwritten or typed), drawings, screen clippings and audio commentaries.

* Notes can be shared with other OneNote users.

Digital Media Resource

Creative, research-based instructional strategies for integrating digital media in meaningful, effective, and practical ways.

Inquiry Chart (I-Chart) *

The Inquiry Chart (I-Chart), developed by James Hoffman in 1992, provides students with a table that guides them in using multiple sources to research a topic. The chart helps students think critically about the results of their research, and supports students in their efforts to synthesize multiple sources of information into a cohesive and meaningful product. Teachers have found that I-Charts are suitable for whole-class, small-group, or individual inquiry, making them a versatile tool in a variety of subject areas and grade levels.

Skills: Assessment, Cites Evidence, Compare and Contrast, Key Ideas and Details, Research, Summarizing
