Chrome Ext.

The Great Suspender

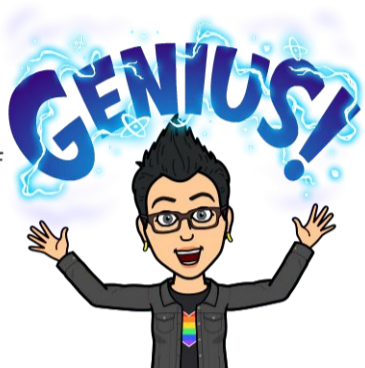

Offered by: thegreatsusponder

Get the Extension

Make your computer run smoothly by suspending the tabs you aren't using.

A lightweight extension to reduce chrome's memory footprint. Perfect if you have a lot of tabs open at the same time. Tabs that have not been viewed after a configurable length of time will be automatically suspended in the background, freeing up the memory and CPU being consumed by that tab.

Jen's Fav

The creativity tool for every classroom.

100% free, now and forever.
