TECH TIPS 411

A resource from Jennifer Hall, NBCT
Digital Learning Specialist

I hope everyone is having a fantastic start to the school year. A highlight for me has been getting some opportunities to push into several classes to co-teach lessons in 8th-grade social studies and 8th-grade science.

In this issue check out the #EdTech Tip for a free creation app, see what's new (a web-based video tool now free for educators and students), tune in for the next episode of Just Ask Jen Live!, try a fun Chrome Extension (avatar maker), watch my latest TT411 Quick Tip for Canva and explore a few more resources.

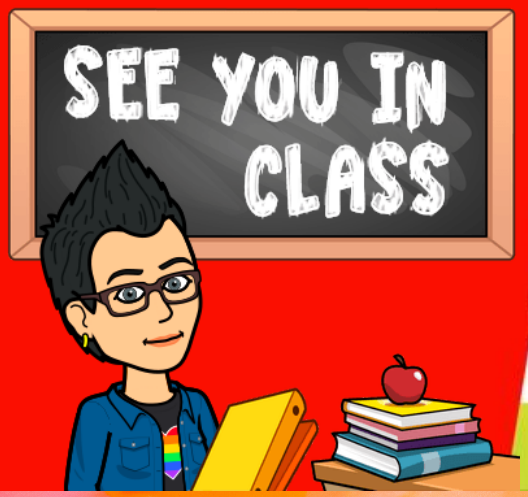
Adobe creative kickstarters for students



Creative kickstarters for any class

As an educator, school leader, faculty member, or dean, you've got a lot on your plate. If you're findin a challenge to integrate creativity and digital literacy into your courses, you're certainly not alone.

Adobe is here to help with a set of kickstarters you can use to inspire your students' creativity, critic thinking, creative problem solving, and collaboration in any class. In these hands-on projects, your stuc will create images, graphics, videos, and other digital media as they explore texts, interpret source mat explain complex concepts, and more.
